To Those Who Want The BEST;

I lost my house in a fire over 5 yrs. ago. Luckily, someone suggested I go to Ma Williams Mobile Homes. I was very skeptical at first but once I met Dennis Williams + Betty Thorpe - all my worries were over. You see - I had gone to quite a few other mobile home manufacturers and no one could come close to the expertise and friendliness I received at Ma Williams.

After I lost my house - all I wanted to do was get back "home" as soon as possible and Ma Williams practically held my hand through the whole ordeal. They treated me as a person and not just a sale. They seemed to realize just what I had gone through and knew just how much I needed to get a new home and get it set up fast! They helped me by dealing directly with the insurance company and the County of Riverside. With their knowledge and expertise they took a load off of my mind.

If you want someone who is honest, dependable and VERY efficient - I strongly suggest you deal only with Ma Williams.

Thank you again for EVERYTHING you did for me - you went the extra mile!!

Just Deblicking

P.S.

Sorry it took me 5 yrs. to write this letter - it seems people can always find the time to complain but never take the time to say "Thank you" for all you did.
